

### Desired Future Condition (DFC) for the Hams Fork Project Area

For locations of each desired future condition, please refer to the Desired Future Conditions Map located online.

1B: Substantial Commodity Resource Development with Moderate Accommodation of Other Resources - Theme: An area managed for timber harvest, oil and gas, and other commercial activities with many roads and moderate to occasionally substantial emphasis on other resources, pages 153 - 158 in the Forest Plan. The project area contains approximately 6,500 acres in DFC 1B.

2A: Non-motorized Recreation Areas -Theme: An unroaded area managed to give a quiet, almost primitive recreation experience, pages 161 - 164 in the Forest Plan. The project area contains approximately 8,600 acres in DFC 2A.

9A: Developed and Administrative Sites - Theme: An area managed for campgrounds, other noncommercial areas, and Forest Service administrative sites, including related roads and sites, pages 221 - 224 in the Forest Plan. The project area contains approximately 300 acres in DFC 9A.

10: Simultaneous Development of Resources, Opportunities for Human Experiences, and Support for Big-Game and a Wide Variety of Wildlife Species - Theme: An area managed to allow for some resource development and roads while having no adverse and some beneficial effects on wildlife, pages 233 - 239 in the Forest Plan. The project area contains approximately 55,500 acres in DFC 10.

12: Backcountry Big-Game Hunting, Dispersed Recreation, and Wildlife Security Areas – Theme: An area managed for high-quality wildlife habitat and escape cover, big-game hunting opportunities, and dispersed recreation activities, pages 241 - 246 in the Forest Plan. The project area contains approximately 1,600 acres in DFC 12.

### Approximate Vegetation Acreages for Hams Fork

Aspen	13,300 acres
Riparian	5,600
Douglas Fir Mix	500
Whitebark Pine	10,500
Lodgepole Pine Mix	19,700
Rangeland/sagebrush	16,000
Spruce/Subalpine Fir	10,000
